Residential – Commercial - Hospitality

We realize that by expanding the products available in the showroom we would expand our businesses and offerings to the community. Our main goal is to provide a home décor shopping convenience for the Quad-Cities while making new and unique items available in the area. With the combined 22 years of experience of Erik, Peggy and Adam of Prescott Floors and Janet's 18 years of experience with Bussell Interiors, they deduced that showcasing their companies together would create an added convenience to the community by providing a one stop shop for interior décor and design needs.

Peggy and Janet met thru their affiliation with YCCA in a community project wherein they sponsored the ***Ugly Bath Contest***. Through this one endeavor they soon realized how synergistic their individual companies are and how their firms compliment each other. By working together they now offer under one roof quality cabinetry, draperies, window coverings, wall coverings, furnishings, space planning as well as expert kitchen and bath design.

Of course Prescott Floors remains the 'go to' source for all your flooring needs, however with their expanded services such as granite countertops, bath surrounds, and custom showers; now more than ever they handle multiple types of projects while continuing with their quality installations and expert estimating. ***We're so much more than just floors!***

Prescott Floors "Let us floor you with our service!"

Bussell Interiors "Where expert design is affordable, fun & accessible!"
